Issued this 5th day of FEBRUARY, 2026.

See overleaf for particulars of the Plaintiff's claim.

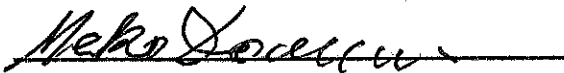

PARTICULARS OF CLAIM

1. On or about May 14, 2025 I had appointment with Dr. Jonathan Lavington. Purpose was to consult regarding extracting broken tooth and to do 2 implants and everything else needed to complete and bring two missing teeth to previous condition. Cost from A to Z was agreed for \$11,000KY. From that date until February 2, 2026 everything that could go wrong has gone wrong.
2. I was directed to brand new x-ray machine that they did not know how to use. It took additional and unnecessary radiation exposure. I was told after complaining of high cost that they use best materials and that they are doing better work than other competitors do. Both implants were placed on wrong location and second implant missed jaw bone altogether. Dr. Jonathan stated that one on right side was loose. He needed to tighten it without freezing. It produced huge pain due to fact that tissue around implant was only thing holding it. After I screamed in pain he said "I only need one more turn." I objected. He put 3 injections and tried to tighten implant.
3. On visit to office Dr. Jonathan kept unscrewing and screwing back several times; he did not have right size and it did not work. That time he took 45 minutes around same implants that have never been inserted in right place.
4. Following visit implant was loose. Dr. Jonathan said that Dr. Janish Grewal will have to deal with that and that I have to wait until he comes on Island. Next appointment was with Dr. Grewel. I asked him did he see the x-ray? He answered "yes I did and everything is normal and ok." He said he needed to take some tissue out around implant. I asked why. He answered gum is too high to do the next job. He did that and there was additional bleeding in process of cutting gum around failed implant that was unnecessary due to fact that he removed implant right after cutting gum. After taking exactly 1 hour fiddling around he took out implant without letting me know. Then he said he needed to do some stitches as he did. On end of 1 hour he said that after about 5 months waiting to put crowns on that I need to wait another 4 to 6 months to do implant again.

5. All unnecessary pain, wrong x-rays, and 8 months waiting I was back to square one. I was exposed to unnecessary pain due to unprofessional practice, and undue pressure, concerns and worries what is happening with my implants and the fact that they are unable to complete pursuant to original agreement including that I will be toothless man for 1-1/2 years or longer. In meantime, I contacted Dr. Andres Biaggi who did entire restoration up and down many years ago and he stated that they put in bone graft to avoid waiting. In fact Dr. Mountjoy here on Island stated that bone graft and dental implant can be put in after tooth removal to avoid waiting time. Initial consultation and assurances about Aventis practice was excellent, but when it came to do the work, it was 180 degree opposite. As stated above, everything has gone wrong and I could not go back. They scared me with unprofessional practice.

AND the Plaintiff claims:

1. The sum of \$19,990.00.
2. Interest in the sum of \$ ~~to be assessed~~ calculated at the prescribed rate from February 5, 2026 to date of Judgement.
3. Fixed costs of \$ 175.00 to be assessed.
